

The Delish Dish: Serving Up Success

After completing culinary school in 2011, Mavis Linnemann-Clark knew she wanted to bring together her love for food, travel, and creating memorable culinary experiences. This vision led to the founding of The Delish Dish in 2012. Launching the company from her home, she aimed to bring high-end international catering to Cincinnati.

Over the past 12 years, the company has developed a strong commitment to delivering the highest level of service and from-scratch global cuisine. The Delish Dish has since become known for producing some of the best wedding and event catering in Cincinnati.

When the pandemic hit, the team pivoted to making meals for families, allowing the culinary team to keep working and the business to remain open. As normalcy returned, the company gradually returned to its catering roots, offering from-scratch international food and white glove service to their wedding, corporate, and social clients.

In 2022, The Delish Dish fully recommitted to its vision of full-service catering, achieving a significant milestone by reaching \$1 million in annual revenue—a goal Mavis had pursued for over a decade.

The company’s mission is to create unforgettable events with outstanding food, exceptional service, and unique presentation. It serves as the foundation for the company’s business growth and guides their business strategy, including a

to-go online ordering platform.

Sustainability and community involvement are also integral to The Delish Dish’s mission. The company donates leftover food to local food banks and nonprofits, reducing waste while ensuring that their delicious food reaches those in need.

As The Delish Dish continues to grow and

evolve, the company remains deeply committed to its founding principles of delivering exceptional, globally inspired cuisine with a focus on quality, service, and community impact.

The Delish Dish not only sets the standard for boutique catering in Cincinnati but also embodies the values that drive long-term success in family and private business.

The Delish Dish

Owner: Mavis Linnemann-Clark
